Introduction

Welcome to the exchange site for national Bridge Information Modeling (BrIM) Standards, collectively known as openBrIM.

This site is open to the general public, with administration and control by FHWA. Any individual may submit a proposed openBrIM object definition. However, only objects that have been reviewed and approved by FHWA will be accepted and incorporated into openBrIM.

Overview

Site Content

- Approved Bridge Info
- Case Studies
- Proposed Bridge Info
- Announcements
- calendar
- Description
- Overview
- Discussions

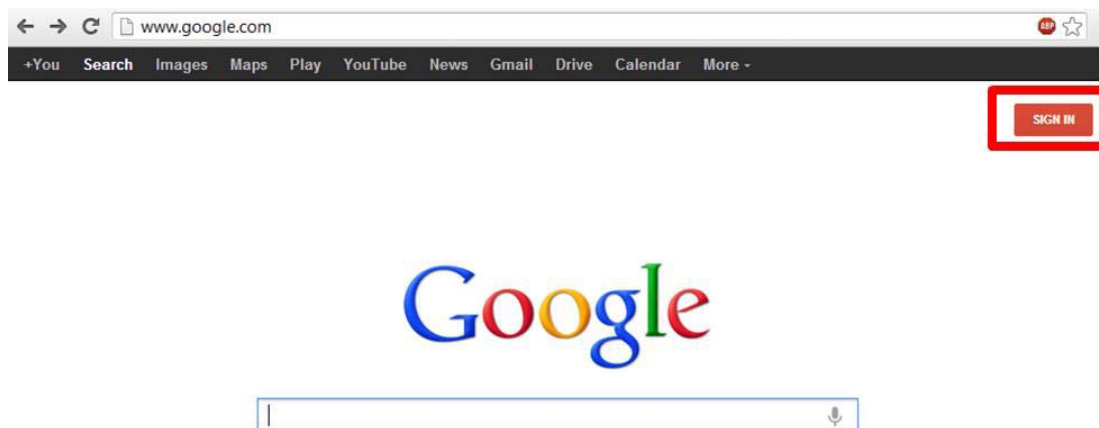

Title Description

4. In the “Open BrIM Standards” page you should be able to download relevant documents.
5. To be able to upload documents special request must be made to the FHWA Sharepoint site administrator.

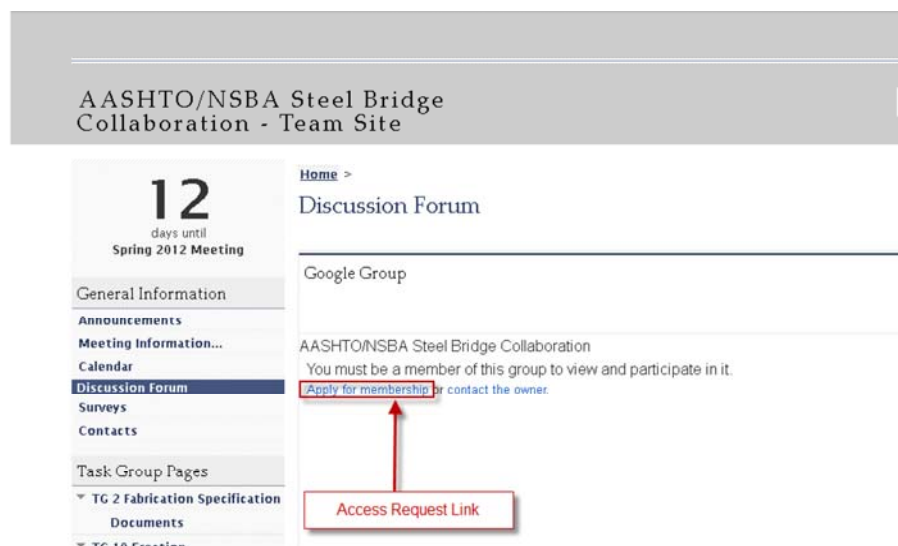

AASHTO/NSBA Steel Bridge Collaboration TG-15 Data Modeling for Interoperability Team Site:

To join the Team Site

1. Once invited to join the group, an email will be sent to you containing a link to the group site. This site requires that you login before accessing its contents. If you do not have a Google login or Gmail account already, after clicking on the link you can create one. The creation of your Google account requires that you enter the email address which was used for the initial collaboration group site invitation and choose a password.
2. Now sign-in at google.com using the “sign-in” link at the upper right corner of the webpage. To reach the collaboration site, you should once again open the invitation email and click the embedded link to the site.

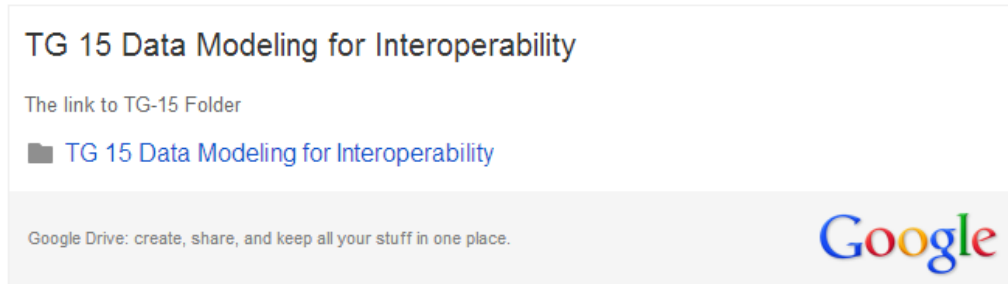

3. Once you have accepted the invitation, you will be taken immediately to the Collaboration Team Site.
4. In order to view and participate in the discussion forum, you must first request access. This can be accomplished by first going to the Discussion Form which can be accessed from the site navigation menu.

To comment on documents

1. A link to the documents will be sent to your mail box.

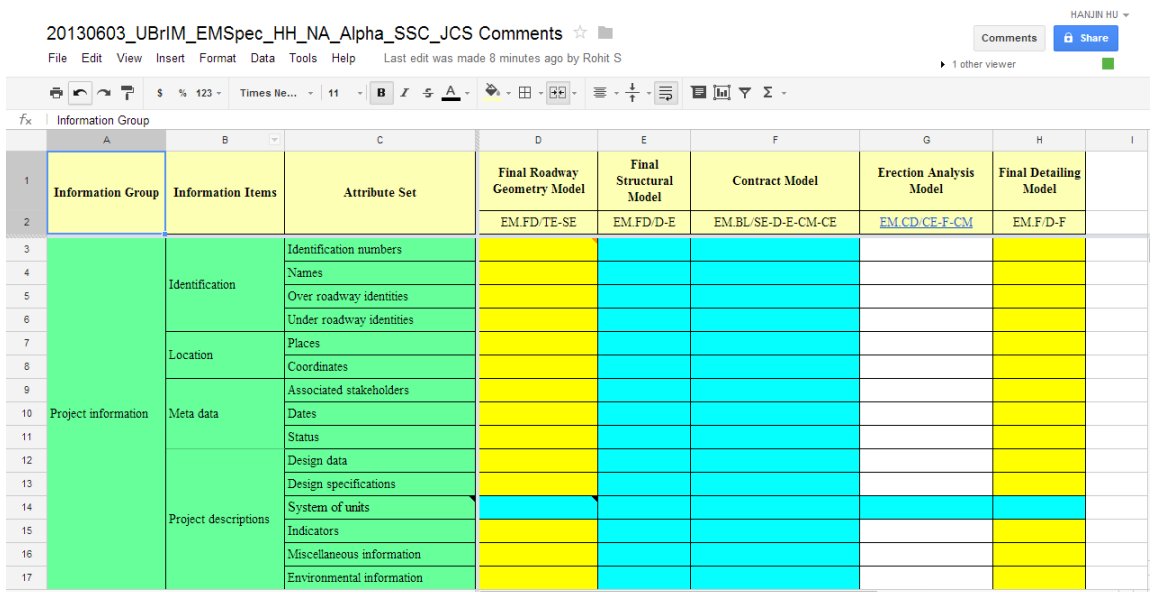

2. The link will take you to the relevant documents.
